To avoid double taxation, you are entitled to claim a foreign tax credit or take an itemized deduction, as applicable, on your federal income tax return for the foreign taxes paid by the International Equity Index and International Growth Portfolios during 2011. Generally, you will owe less federal income tax if you claim the foreign tax credit by filing IRS Form 1116. (For corporations, use Form 1118.)

Determining Your Credits & Deductions

Qualifying Foreign Taxes Paid: Form 1099-DIV (Box 6) reports the foreign taxes paid. This is your qualifying foreign taxes paid used in Part II of Form 1116 (for corporations, Schedule B of Form 1118).

Gross Income from Sources Outside the U.S.: Multiply the “Foreign Source Income Factor” in the table below by the amount in box 1a of your Form 1099-DIV. This result is your gross income from sources outside the U.S. used in Part I of Form 1116 (for corporations, Schedule A of Form 1118).

We recommend that you consult your tax advisor to determine whether the deduction or credit is best for you. For additional information, refer to IRS Publication 514, Foreign Tax Credit for Individuals, or call the Foreign Tax Credit Department of the IRS at 800-829-1040.
