

NORTHERN TRUST ASSET MANAGEMENT

S&P 400 INDEX FUND

DC - NON-LENDING

EQUITY

COLLECTIVE - TIER 4

AS OF 1Q25

Investment Objective

The primary objective of the Northern Trust Collective S&P 400 Index Fund - DC - Non-Lending is to approximate the risk and return characteristics of the S&P 400 MidCap Index. This Index is commonly used to represent the mid cap segment of the U.S. equity market.

Investment Approach

To achieve its objective, the Fund employs a replication technique which generally seeks to hold each index constituent in its proportional index weight. The Fund may make limited use of futures and/or options for the purpose of maintaining equity exposure. This Fund may not participate in securities lending.

PERFORMANCE DISCLOSURES

Past performance is not a guarantee of future results. Returns for periods greater than one year are annualized. For Tiers that have less than 10 years of performance history, some returns may be modeled. For modeled returns, performance prior to the above Inception Date is based on the historical returns of the Hub fund, adjusted to reflect the fees and expenses of this tier. As further described in the Fund Declaration, this fund holds units of the Hub fund. Performance returns and the principal value of an investment will fluctuate. Performance returns contained herein are subject to revision by Northern Trust Investments, Inc. (NTI). Comparative indices shown are provided as an indication of the performance of a particular segment of the capital markets and/or alternative strategies in general. Index performance returns do not reflect any management fees, transaction costs or expenses. It is not possible to invest directly in any index. Net performance returns are reduced by investment management fees and other expenses relating to the management of the account. Gross performance returns contained herein include reinvestment of dividends and other earnings, transaction costs, and all fees and expenses other than investment management fees, unless indicated otherwise. For additional information on fees, please refer to Part 2a of the Form ADV or consult an NTI representative.

All securities investing and trading activities risk the loss of capital. There can be no assurance that any portfolio investment objectives will be achieved. Risk controls and models do not promise any level of performance or guarantee against loss of principal. No investment strategy or risk management technique can guarantee returns or eliminate risk in any market environment. Any discussion of risk management is intended to describe NTI's efforts to monitor and manage risk but does not imply low risk.

To comply with such regulations, plan sponsors will need to provide plan participants with additional information and should contact the plan administrator or plan record keeper regarding disclosure of total expenses to participants.

## INVESTMENT RISKS

The following Risks are for S&P 400 Index Fund DC - Non-Lending:

**EQUITY RISK:** Equity securities (stocks) are more volatile and carry more risk than other forms of investments, including investments in high-grade fixed-income securities.

**INDEX FUND RISK:** The performance of the Fund is expected to be lower than that of the Index because of Fund fees and expenses.

**MID-CAP RISK:** Mid-capitalization stocks typically carry additional risk, since smaller companies generally have higher risk of failure and, historically, their stocks have experienced a greater degree of volatility.

## DEFINITIONS

<sup>1</sup>S&P MidCap 400 Index is an unmanaged index consisting of 400 mid-cap stocks. The S&P MidCap 400 Index covers over 7% of the U.S. equities market. It is not possible to invest directly in an index.

**Tracking Error:** Tracking error is a measure of the volatility of the differences in the return between a fund and its benchmark. The smaller the tracking error, the more the fund resembles the benchmark regarding risk and return characteristics.

**Beta:** Beta is a measure of the volatility, or systematic risk, of a security or a portfolio in comparison to the market as a whole.

**Annualized Standard Deviation:** Standard deviation is a measure of risk. In this case risk is represented by the fund's price movements up or down over time.
